Chihab eddine LAKEHEL

Full Stack Web Developer

Profil

After graduating with a degree in Petroleum Geophysics, I decided to pursue my passion for programming. I enrolled in a coding bootcamp and learned full-stack web development. My favorite part of programming is the problem-solving aspect. I love the feeling of finally figuring out a solution to a problem. My core stack is React, Next.js, Node.js, and MongoDB. I am also familiar with TypeScript and Prisma. I am always looking to learn new technologies
